How-To Cancel your Subscription

Account & Licenses · https://mhthemes.com/support/knb/how-to-cancel-your-subscription/

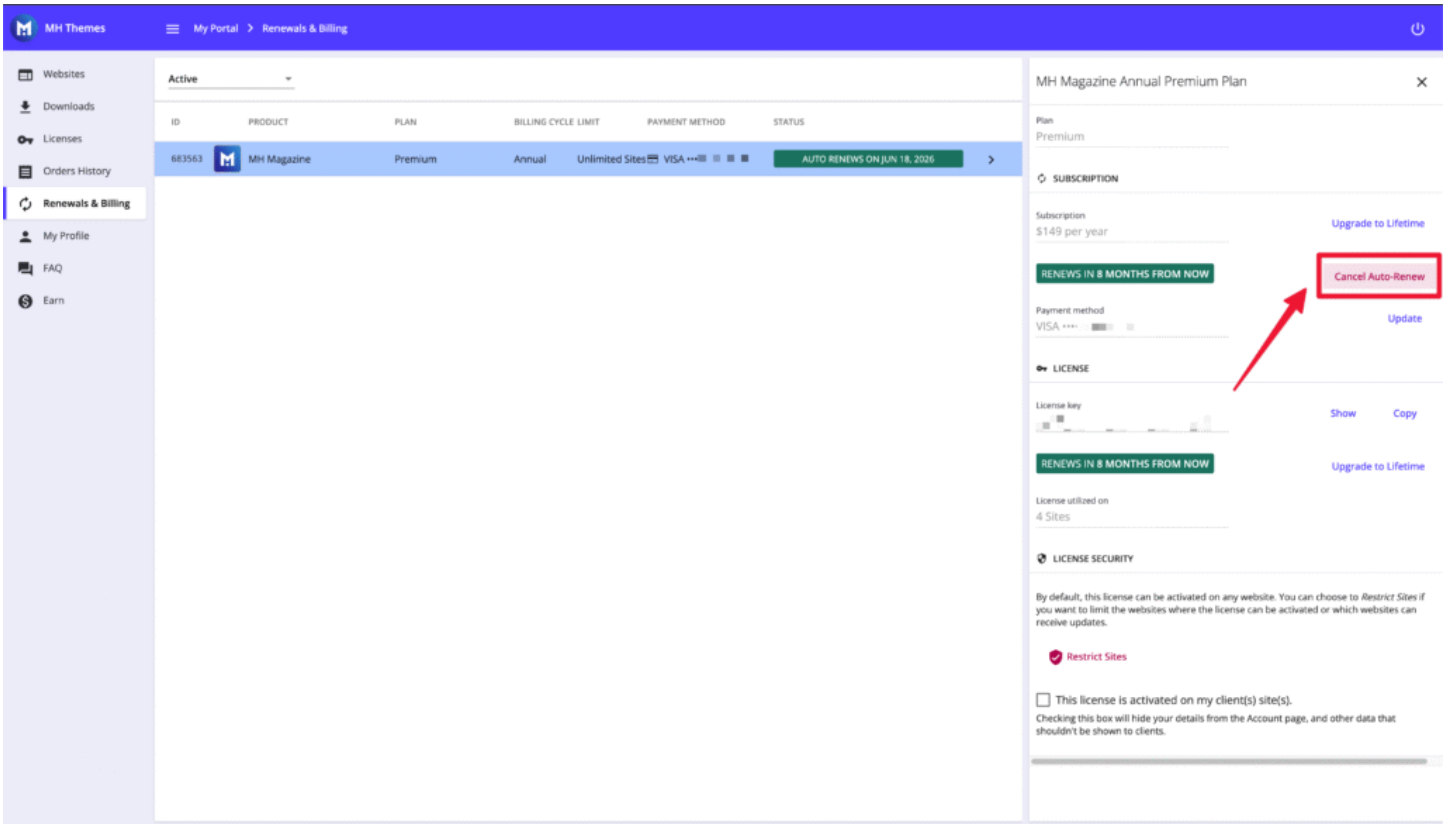

If you decide that you no longer need your **MH Magazine** subscription or want to stop automatic renewals, you can cancel it at any time through your account. Canceling your subscription will prevent future charges, but it won't affect your current access to the themes, features, or updates you've already received.

Important: Canceling your subscription does not affect your current access. You'll retain full access to your MH Magazine license and features until the end of your billing cycle; however, updates and priority support will no longer be available afterward.

To cancel your MH Magazine subscription, navigate to your account page and log in.

Once logged in, go to the **Renewals & Billings** section and find the **Subscription**.

Click **Cancel Auto-Renew** to stop the automatic renewal of your subscription.

Once canceled, your subscription will not renew automatically. If you purchased an annual license key, you will need to manually renew it once it expires.

Can't Access Your Account to Cancel Your Subscription?

If you're unable to access your account via the **Freemius** account page, you can request a subscription cancellation by either:

- Emailing us directly at **support@mhthemes.com**, or
- Submit a **support request** via our contact form: https://mhthemes.com/support/request/

Once we receive your request and you provide confirmation, our team will proceed with canceling your subscription on your behalf.
