How-to Upgrade your License

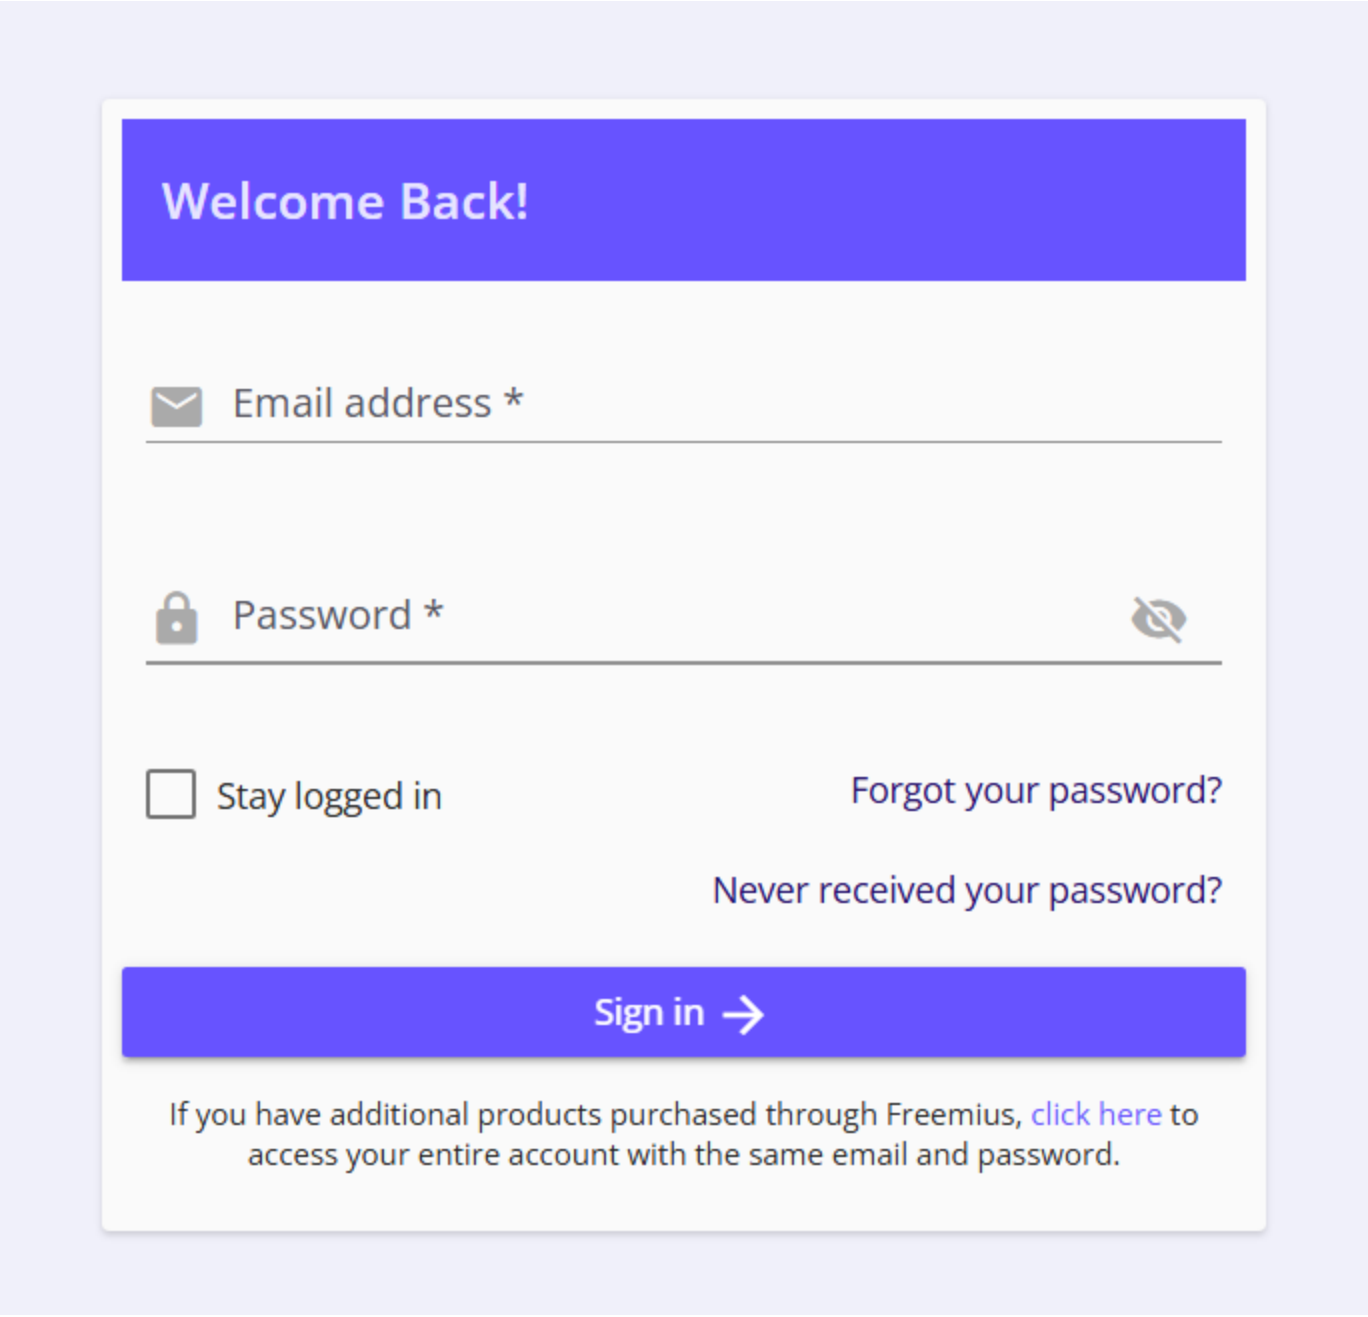

Account & Licenses · https://mhthemes.com/support/knb/how-to-upgrade-your-license/

Upgrading your **MH Themes** license allows you to activate our themes on more websites. Whether you're managing multiple sites or expanding your business, this guide will show you how to easily upgrade your license to accommodate additional website activations. We'll walk you through the process and explain how the pricing works based on your current license and the number of sites you want to use our themes on.

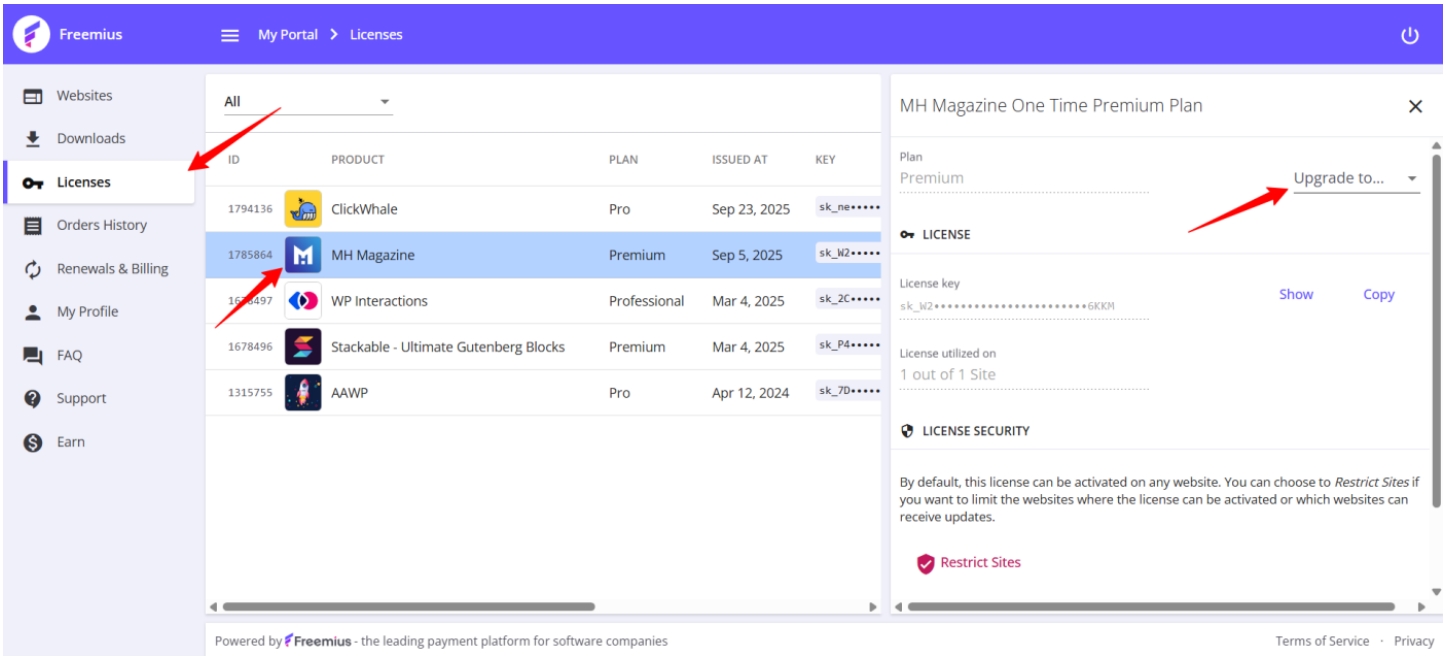

Upgrading Your MH Themes License

You can easily upgrade your existing **MH Themes** license at any time if you want to use our themes across multiple websites. When upgrading to a theme bundle, the upgrade cost will be calculated based on the price difference between your current license and the bundle, along with the remaining time until your license expires.

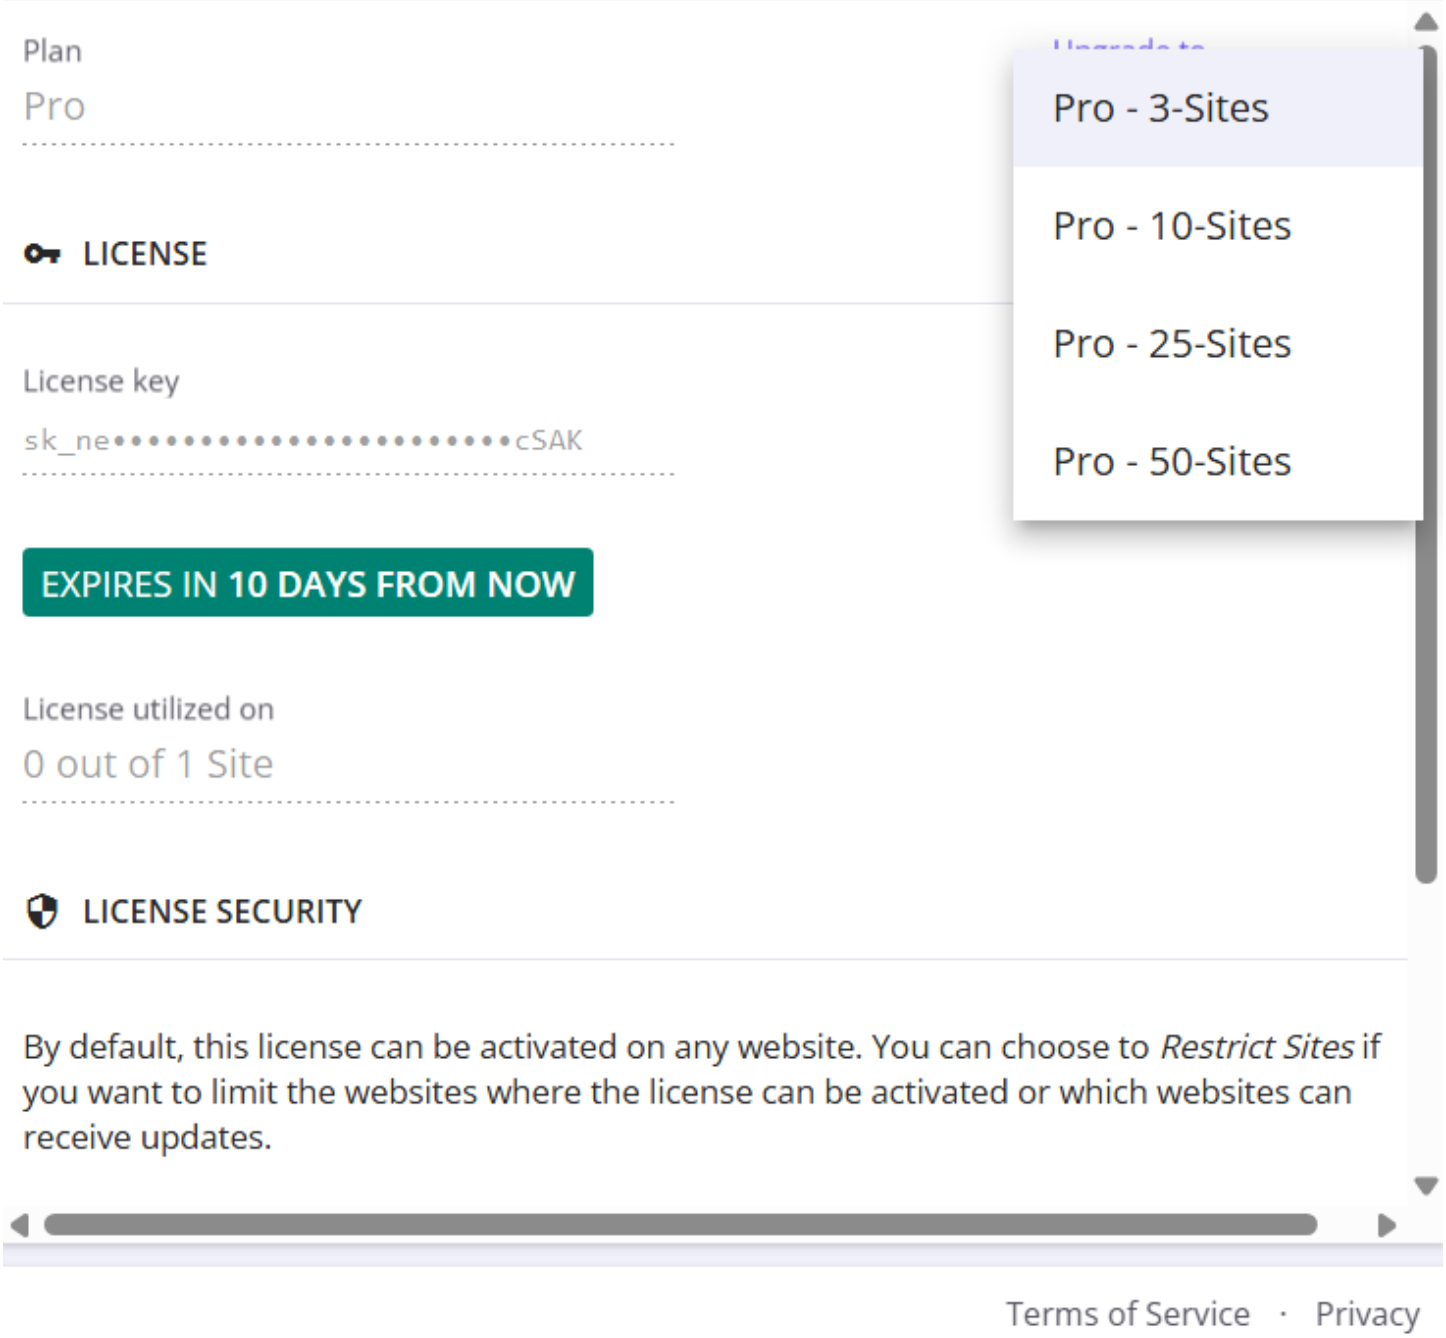

To upgrade your **MH Themes** license and unlock more website activations, simply log in to your **Freemius account**.

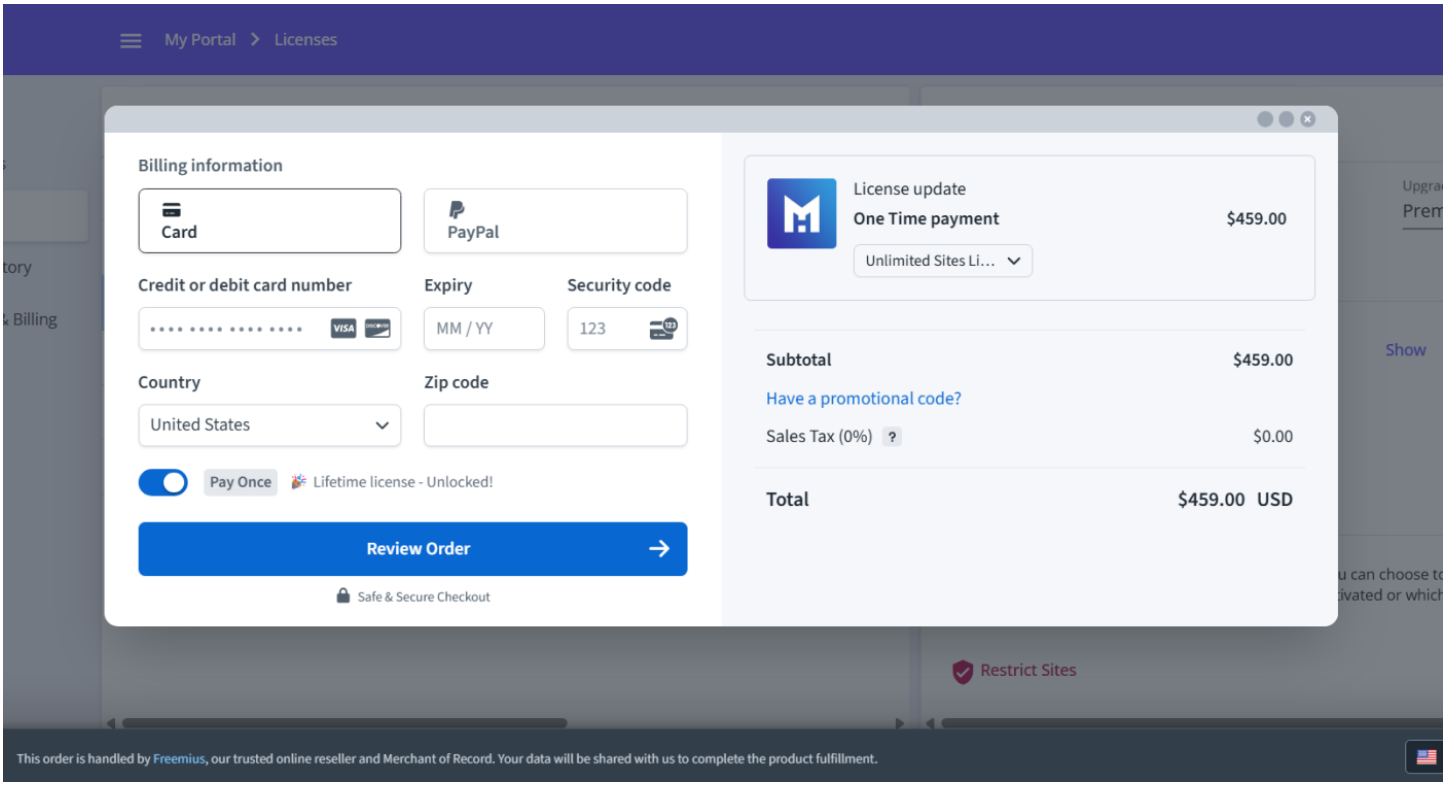

After logging in, go to **Licenses** and click the **MH Magazine** product.

From there, you can choose the plan that best fits your needs and easily upgrade to extend your theme usage across additional websites. The process is quick, and you'll be able to manage your license and billing details all in one place.

After choosing your preferred upgrade path for your license, the checkout window will pop up. You can then review the details of your upgrade, including the price difference based on your current plan and the remaining time on your license.

Once the process is complete, your license will be upgraded, and you can begin activating your license key on multiple websites.

Your License Has Expired or Is About to Expire? Here's How to Renew Your MH Magazine License.
