FAQs on Spotlight Widget

How can I remove the post meta information?

There is an option within the widget itself that you can use to disable the post meta information from being displayed.

How can I move the widget title to the top-right of the post image?

Add this to your child theme style.css file:

.mh-spotlight-caption { top: 0; right: 0; }

How can I change the amount of text within the spotlight widget?

You can change the excerpt length via the setting within the widget itself, simply change the default value from 35 words to any other number.
