WANTED: Theme Translations

Uncategorized · https://mhthemes.com/support/knb/theme-translations/

When you are using one of our WordPress themes and have translated the theme into your own language, it would be fantastic if you send us the translation file (

1	.po

) so that we can include the new translation of your WordPress theme with the next theme update.

This will make your WordPress theme even better and other users will also benefit from up-to-date translation files and your contribution to the MH Themes community. In case you don't know how to translate a WordPress theme, you can find a tutorial here: How to translate a WordPress theme.

Everyone who contributes a new translation file or completes / updates an existing translation will be mentioned within the changelog of the particular theme. Here you can see an overview of the translation files that are already included in the particular WordPress themes:

MH Magazine WordPress Theme
